

CCDI Hub User Guide

8/27/2026

<u>Version</u>	<u>Date</u>	<u>Description</u>	<u>Author</u>
<u>1.0.0</u>	<u>5/10/2023</u>	<u>Initial Release</u>	<u>CCDI Hub Team</u>
<u>1.1.0</u>	<u>6/6/2023</u>	<u>Added data, improved Section 508 compliance</u>	<u>CCDI Hub Team</u>
<u>1.2.0</u>	<u>8/23/2023</u>	<u>Added data, updated latest news</u>	<u>CCDI Hub Team</u>
<u>2.0.0</u>	<u>10/31/2023</u>	<u>Added Explore Dashboard</u>	<u>CCDI Hub Team</u>
<u>2.1.0</u>	<u>12/12/2023</u>	<u>Added MCI page, improved mobile responsiveness, improved styling consistency, added direct import to CGC from cart, updated Explore Dashboard</u>	<u>CCDI Hub Team</u>
<u>2.2.0</u>	<u>3/8/2024</u>	<u>Updated to data model v1.7.2, added data, updated Home and About pages, added charts to MCI page, updated Explore Dashboard</u>	<u>CCDI Hub Team</u>
<u>2.3.0</u>	<u>6/26/2024</u>	<u>Added data, added informational banners, updated Home page, updated MCI page, updated Explore Dashboard</u>	<u>CCDI Hub Team</u>
<u>2.3.1</u>	<u>8/6/2024</u>	<u>Added CCDI Data Federation API resource, added Data Policies and Terms page, updated MCI page, updated Explore Dashboard</u>	<u>CCDI Hub Team</u>
<u>2.3.2</u>	<u>8/30/2024</u>	<u>Updated MCI page, updated Explore Dashboard</u>	<u>CCDI Hub Team</u>
<u>2.4.0</u>	<u>10/10/2024</u>	<u>Added data, added CPI resource page, improved Section 508 compliance, updated Explore Dashboard</u>	<u>CCDI Hub Team</u>
<u>2.5.0</u>	<u>12/18/2024</u>	<u>Added data, added Publications page, updated Home page, reorganized menu, updated Explore Dashboard, updated user guide</u>	<u>CCDI Hub Team</u>
<u>2.5.1</u>	<u>2/12/2025</u>	<u>Updated data, reorganized menu, updated Publications page, updated MCI page, improved mobile responsiveness, updated Explore Dashboard, updated user guide</u>	<u>CCDI Hub Team</u>
<u>2.6.0</u>	<u>4/8/2025</u>	<u>Added data, added Release Notes page, updated Home page, updated MCI page, updated Explore Dashboard, updated user guide</u>	<u>CCDI Hub Team</u>
<u>2.6.1</u>	<u>5/14/2025</u>	<u>Updated data, updated Publications page, updated MCI page, updated Explore Dashboard</u>	<u>CCDI Hub Team</u>
<u>2.7.0</u>	<u>6/30/2025</u>	<u>Added data, added CCDI Data Submissions Guidelines pdf, added Hub video tutorial, added new pages for Cohort Analyzer, Data Model Navigator, Studies Listing, Study Details, and Tools, improved mobile responsiveness, updated Data Federation page, updated Publications, updated MCI page, updated Explore Dashboard, updated global search, updated user guide</u>	<u>CCDI Hub Team</u>
<u>2.7.1</u>	<u>8/4/2025</u>	<u>Updated Home page, updated MCI page, improved mobile responsiveness, updated Publications, updated global search, updated Explore Dashboard</u>	<u>CCDI Hub Team</u>
<u>2.8.0</u>	<u>9/12/2025</u>	<u>Added data, updated MCI page, updated study details page, updated global search, updated Publications, updated Explore Dashboard, updated user guide</u>	<u>CCDI Hub Team</u>
<u>2.9.0</u>	<u>12/16/2025</u>	<u>Added data, added events page, updated MCI page, updated study details page, updated global search, updated Explore Dashboard, updated user guide</u>	<u>CCDI Hub Team</u>
<u>3.0.0</u>	<u>8/27/2026</u>	<u>Replaced Hub Explore content with links to C3DC Explore documentation to reflect consolidation to single CCDI Explore; moved appendices to C3DC user guide</u>	<u>CCDI Hub Team</u>

Using Additional CCDI Hub Features	6
Contact Information	6

Introduction

This document provides information about how to use the [Childhood Cancer Data Initiative \(CCDI\) Hub](#), including how to search for open CCDI data available through other CCDI applications.

Note that CCDI studies are indexed in the CCDI Explore Dashboard at the file level from the C3DC application. Additional CCDI applications and other resources are described in informational pages and available through the various Hub menus. Related resources—internal and external to CCDI—are linked where relevant. Application and data update summaries and other announcements are available to browse from the [News](#) page, with full release details available from the Release Notes page. Additional user documentation details general site usage and data use terms and best practices.

A list of all CCDI studies released is available through the [CCDI Childhood Cancer Data Catalog](#).

Browsing CCDI Hub Resources

Details about and access to CCDI resources can be accessed by several routes.

1. Click to open a resource page from the carousel on the Home page hero banner.

2. Click a resource icon from the resources section on the Home page.

Resources

CCDI-SUPPORTED RESOURCES

CCDI cBioPortal	cBioPortal Cancer Data Explorer ↗ CCDI's customized cBioPortal instance allows users to explore and visualize complex genomic and clinical data without the need to download large datasets.	CCDI Data Federation Resource	CCDI Data Federation Resource The CCDI Data Federation Resource provides harmonized metadata accessible via an API that facilitates the search across multiple resources.
ecDNA	CCDI Extrachromosomal DNA (ecDNA) ↗ A catalog of circular extrachromosomal DNA (ecDNA) associated with childhood cancers, facilitating research and clinical insights.	CPI	CCDI Participant Index (CPI) CCDI's Participant Index (CPI) API maps participant IDs across studies, empowering researchers to explore complex questions and advance pediatric cancer research.
CCDI Pediatric, AYA Rare Cancer Study	CCDI Pediatric, AYA Rare Cancer Study This initiative advances understanding of very rare childhood cancers through standardized data collection and collaboration to improve outcomes for young patients.	C3DC	Childhood Cancer Clinical Data Commons (C3DC) ↗ A database that houses childhood cancer demographics and phenotypic clinical data.
CCDC	Childhood Cancer Data Catalog (CCDC) ↗ A searchable inventory of childhood cancer resources.	CIViC	Clinical Interpretation of Variants in Cancer (CIViC) ↗ An open access, open source, community-driven web resource for clinical interpretations of mutations related to cancer.
MCI	Molecular Characterization Initiative (MCI) A program providing molecular testing for children, adolescents, and young adults with certain cancer types.	NCCR Data Platform	National Childhood Cancer Registry (NCCR) Data Platform ↗ The NCCR Data Platform is a cloud-based repository offering comprehensive data on cancer patients aged 0-39.
NCCR Explorer	National Childhood Cancer Registry Explorer (NCCR Explorer) ↗ A tool to browse demographic, incidence, and survival statistics for cancers in children, adolescent, and young adults.	Pediatric Molecular Target Lists	Pediatric Molecular Target Lists FDA's Pediatric Molecular Target Lists (PMTL) identify gene targets relevant to pediatric cancers to guide oncology drug development and regulatory decisions.

- Click a resource option from the navigation bar dropdown menus.

MY FILES 0 FILES

CCDI cBioPortal	CCDI Data Federation Resource	CCDI Participant Index	CCDI Pediatric, Adolescent, and Young Adult Rare Cancer Study
Childhood Cancer Clinical Data Commons	Childhood Cancer Data Catalog	Molecular Characterization Initiative	National Childhood Cancer Registry Explorer
NCCR Data Platform	Pediatric Molecular Target Lists	Tools	

Note that clicking via any of these routes will take you to a dedicated CCDI Hub informational page when one exists, or directly to the corresponding application when there is no separate Hub page.

Accessing Data through CCDI Explore

The guiding principle of the [National Institutes of Health \(NIH\) Data Sharing Policy](#) is to make data available in a timely manner to the largest possible number of investigators. For human data, data are made available under terms and conditions consistent with the participants' informed consent, and the confidentiality of the data and the privacy of participants are maintained.

For CCDI, some resources contain open-access data, while others contain registered-access or controlled-access data sets.

Open Access: For public access; requires no special credentials

Examples: CCDI Childhood Cancer Data Catalog, CCDI Molecular Targets Platform

Registered Access: For anyone registered with the repository; usage may be monitored

Example: CCDI National Childhood Cancer Registry Explorer

Controlled Access: For credentialed users who have applied to access the data

Example: CCDI genomic data stored at the Cancer Data Service

To gain access to controlled data, researchers must:

1. Have an [NIH eRA Commons account](#) for authentication.
2. Request authorization by the NIH database of Genotypes and Phenotypes (dbGaP). Authorization is enforced by the Data Commons Framework Services (DCFS), whether accessing directly from DCFS or through the CGC. A step-by-step breakdown of the data access request process is located in this [guide](#).

Below is a guide to help you understand how these platforms are used to connect different components of a CCDI study:

Platform	Data Types
CCDI Explore Dashboard in C3DC	Basic de-identified information on participant, samples, files, etc., to build cohorts
database of Genotypes and Phenotypes (dbGaP)	CCDI study information, list of CCDI study subject IDs, sample IDs, and consents to register the controlled-access studies in dbGaP system
Data Commons Framework Services (DCFS)	Globally Unique Identifiers (GUIDs) for digital objects and authentication and authorization services
Cancer Genomics Cloud (CGC)	Tools, computing resources, etc., to analyze the data
CCDI cBioPortal Cancer Data Explorer	Gene, mutation, cancer type, and clinical data for visualization of relationships, patterns, and trends

To browse the latest CCDI data at a high level, click Studies from the top menu. The list of currently indexed CCDI data contains links to more detailed study-centric summaries and directly to the CCDI Explore dashboard.

To search the latest CCDI data for a term of interest, enter your search term in the top right Global Search bar. Results will be provided for all instances of the queried term in Hub's pages and in the CCDI metadata for data available through CCDI Explore. Where appropriate, links from the search results will take you directly to the corresponding information in C3DC or the CCDI cBioPortal Cancer Data Explorer.

For more details on data exploration and cohort creation, refer to C3DC CCDI Explore documentation. Please note that

Using Additional CCDI Hub Features

In addition to information about and links to CCDI resources and applications, a number of additional informational pages can be accessed from the News and About menus.

News – Here you will find details about the latest data and application updates for a number of CCDI resources, and other announcements of interest to the CCDI ecosystem user community.

About – this menu provides context and documentation to further support users understanding what the CCDI ecosystem has to offer

- [About CCDI Hub](#) – learn more about the Hub, the Childhood Cancer Data Initiative, and how to contact the CCDI
- [CCDI Data Ecosystem and AI Readiness \(PDF\)](#) – learn about the resources that make up the CCDI Data Ecosystem and AI applications being used by CCDI
- [CCDI Data Model](#) – explore the nodes, properties, and relationships that describe CCDI data
- [CCDI Data Submission Guide \(PDF\)](#) – read guidance about how to submit data and tools for inclusion in the CCDI Data Ecosystem
- [CCDI Data Usage Policies & Terms](#) – understand the expectations, disclaimers, and citation rules for use of CCDI data
- [CCDI Events Announcements](#) – browse events, webinars, and workshops hosted by CCDI
- [CCDI-Supported Publications](#) – browse and search CCDI-supported publications
- [FAQs](#) – read frequently asked questions about CCDI and its applications
- [Release Notes](#) – browse or download the details of all of CCDI Hub's historical releases
- [User Guide](#) (this document) – learn about CCDI Hub's features and connectivity to other CCDI resources

Contact Information

Please direct any questions or requests for further information or new features to the [CCDI mailbox](#).
